INDEPENDENT AUDITOR'S REPORT

Board of Commissioners
West Jefferson Levee District
Marrero, Louisiana

I have audited the accompanying basic financial statements of the West Jefferson Levee District (the "District"), a component unit of the State of Louisiana, as of and for the year ended June 30, 2002, as listed in the table of contents. These financial statements are the responsibility of the District's management. My responsibility is to express an opinion on these basic financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the West Jefferson Levee District as of June 30, 2002 and the results of its operations and the respective budgetary comparison for the General fund for the year then ended, in conformity with accounting principles generally accepted in the United States..

As described in Note I to the basic financial statements, the District has implemented GASB No. 33, "Accounting and Financial Reporting for Non-Exchange Transactions", GASB No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments", GASB Statement No. 36, "Recipient Reporting for Certain Shared Non-exchange Revenues", GASB Statement No. 37, "Basic Financial Statement - and Management's Discussion and Analysis -for State and Local Governments - Omnibus", and GASB Interpretation No. 6, "Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements" as of July 1, 2001. This results in a change in the format and content of the basic financial statements.

My audit was made for the purpose of forming an opinion on the basic financial statements of the District, taken as a whole. The Combining and Individual Fund Statements and Schedules, and the Supplemental Information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements of the West Jefferson Levec District. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The schedule of expenditures of federal awards included in the Supplemental Information section is also presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Management's Discussion and Analysis on pages 3 through 10 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, I did not audit the information and express no opinion on it.

In accordance with Government Auditing Standards, I have also issued a report dated August 23, 2002, on my consideration of the District's internal control over financial reporting and our tests of compliance with laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of my audit.

August 23, 2002

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the West Jefferson Levee District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the West Jefferson Levee District for the fiscal year ended June 30, 2002. We encourage readers to consider the information presented here in conjunction with the financial statements. All amounts, unless otherwise noted, are expressed in thousands of dollars.

FINANCIAL HIGHLIGHTS

- Because the District is a component unit of the State of Louisiana, it was required to adopt the requirements of GASB Statement No. 34, effective July 1, 2001. Thus, the format and contents of the financial report have changed significantly from the previous year. Because the restatement of the prior year financial statements into the new format was impractical, this management's discussion and analysis will only focus on the current year. In the future, as comparative statements are available, financial comparisons will be explained from year to year.
- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$45,187 (net assets). Of this amount, \$4,395 (unrestricted net assets) or 9.7 percent may be used to meet the government's ongoing obligations to citizens and creditors.
- The District's total net assets increased by \$5,861 or 14.9 percent during the current year. The majority of this increase is due to the \$4,749 received in capital grants (State-wide Flood Control and State Capital Outlay monies) for the Westbank Hurricane Protection Levec. This money was spent on the Westbank Hurricane Protection Levee, however, those costs were capitalized as construction in progress or infrastructure. Thus, the program revenue runs through the statement of activities, while the related expenses appear on the statement of net assets.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$4,624, a decrease of \$571 or 10.9 percent in comparison with the prior year.

 Approximately 98 percent of this total amount, \$4,505, is available for spending at the government's discretion (unreserved fund balance). There are, however, some board designations that limit the spending of some of these balances (see Note D.7).
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$589, or 26.4 percent of total general fund expenditures.
- The District's total long-term debt decreased by \$156 or 15.8 percent during the current fiscal year. The key factor in this decrease was no new issuance of long-term debt and the payment of \$160 on the outstanding 1996 Excess Revenue Bonds

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the West Jefferson Levee District's basic financial statements. As noted above, the District's adoption of GASB Statement No. 34 significantly changed the format and presentation of the District's financial report. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The "government-wide financial statements" are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The "statement of net assets" presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets my serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The "statement of activities" presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expense are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The District only has governmental activities in the public works function. This function includes executive, administrative, and maintenance/construction activities.

The government-wide financial statements include only the financial activities of the West Jefferson Levee District, which is a component unit of the State of Louisiana. The State of Louisiana (the primary government) issues financial statements that include the activity contained in these financial statements. The State's financial statements are issued by the Louisiana Division of Administration – Office of Statewide Reporting and Accounting Policy and are audited by the Louisiana Legislative Auditor.

The government-wide financial statements can be found on pages 12 and 13 of this report.

Fund financial statements. A "fund" is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District's funds are classified as "governmental funds".

Governmental funds. "Governmental funds" are used to account for essentially the same functions reported as "governmental activities" in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for "governmental funds" with similar information presented for "governmental activities" in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between "governmental fund" and "governmental activities".

The District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the General fund, the Emergency Special Revenue Fund, the West Bank Hurricane Levec Capital Project fund, and the Lafitte Levec Capital Project fund, all of which are considered to be major funds. Data from the other two governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of "combining statements" elsewhere in this report.

The District adopts an annual appropriated budget for its General fund. A budgetary comparison statement has been provided for the General fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 14 -17 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 19-40 of this report.

Other information. The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the notes to the financial statements. Combining statements for nonmajor funds can be found on pages 43 – 45 of this report. Individual fund statements and schedules, which show additional detailed financial information of some of the major funds, is found on pages 48 – 55. Supplemental information, including a Schedule of Commissioners' Per Diem, a Schedule of State Funding, a Schedule of Expenditures of Federal Funds, and the Division of Administration's Reporting Package are included on pages 58 - 101.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$45,187 at June 30, 2002.

By far the largest portion of the District's net assets (90.0 percent) reflects its investment in capital assets (e.g., land, buildings, furniture and fixtures, machinery, vehicles and equipment, and infrastructure)., less any related debt used to acquire those assets that is still outstanding. The District used these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities.

WEST JEFFERSON LEVEE DISTRICT'S NET ASSETS

	•	Governmental Activities 2002	
Current and other assets	\$	5,711	
Capital assets		41,293	
Total assets	,	47,004	
Long-term liabilities outstanding		831	
Other liabilities		986	
Total liabilities	•	1,817	
Net assets:			
Invested in capital assets, net of			
related debt		40,673	90.0%
Restricted		119	0.3%
Unrestricted		4,395	9.7%
Total net assets	\$ <u>~</u>	45,187	

An additional portion of the District's net assets (0.3 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets (\$4,395 or 9.7 percent) may be used to meet the government's ongoing obligations to citizens and creditors.

At June 30, 2002, the District is able to report positive fund balances in all three categories of net assets.

The District's net assets increased by \$5,861 during the current fiscal year. The majority of this increase is caused by the capital grant program revenue flowing through the statement of activities, while the related disbursements of these funds have been capitalized on the statement of net assets as construction in progress or infrastructure.

Governmental Activities. Governmental activities increased the District's net assets by \$5,861. Key elements of this increase are as follows:

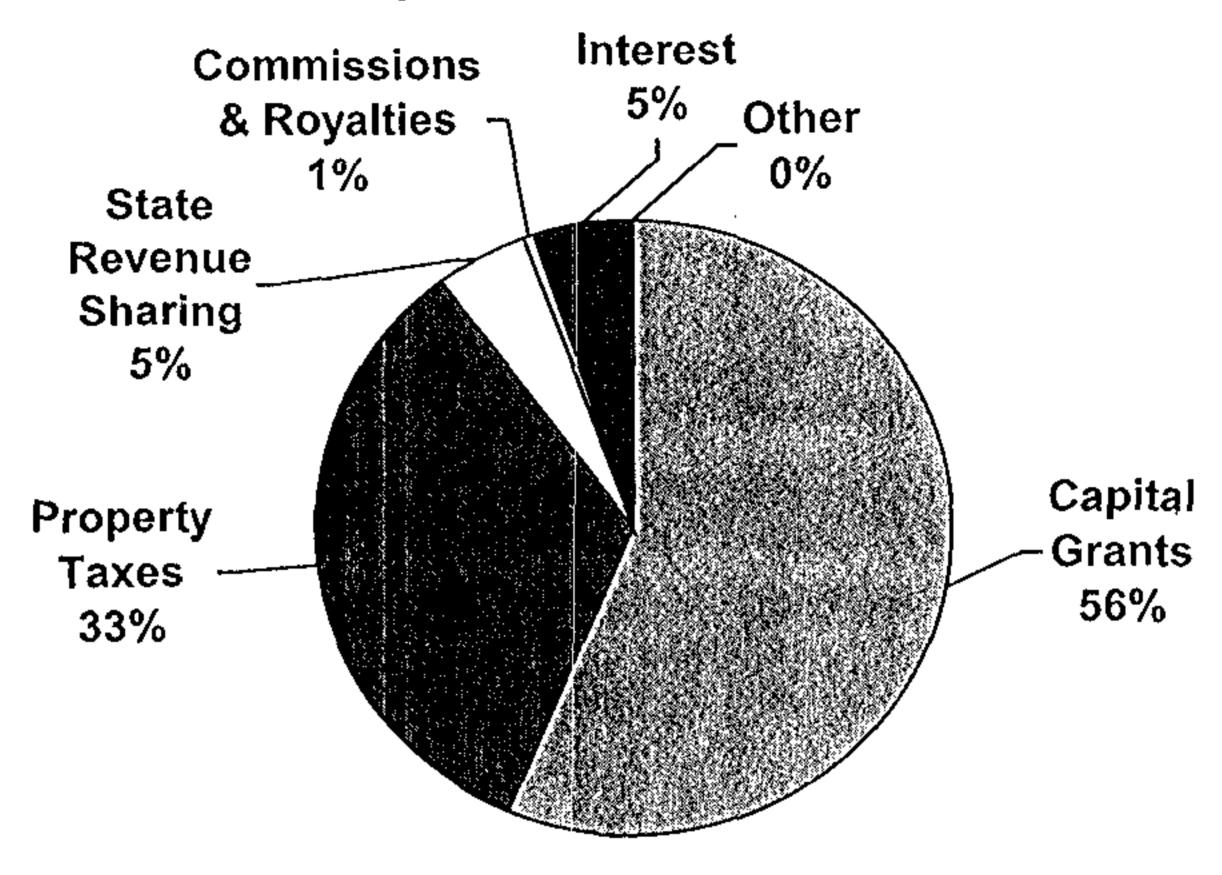

WEST JEFFERSON LEVEE DISTRICT'S CHANGES IN NET ASSETS

		vernmental Activities 2002
Revenues:	•	
Program revenues:		
Charges for services	\$	-
Operating grants and contributions		-
Capital grants and contributions		4,749
General reveneus:		
Property taxes		2,816
State revenue sharing		397
Commissions and royalties		54
Interest		411
Other		(11)
Total revenues		8,416
Expenses:		
Public works		
Executive		140
Administrative		425
Maintenance		1,316
Nondepartmental		293
Unallocated depreciation		340
Interest on long-term debt		41
Total expenses	p	2,555
Increase in net assets		5,861
Net assets - Beginning of year		39,326
Net assets - end of year	\$	45,187

- Property taxes increased by \$312 or 12.5 percent during the year. Most of this increase is due to the roll-forward of the millage rate from 4.89 in 2000 to 5.03 in 2001. Increases were also seen in the assessed values of property within the District's boundaries.
- > Capital grants for governmental activities actually decreased by \$3. Approximately the same amount of money was received from State-wide Flood Control and State Capital Outlay as in the previous year.
- > Interest income was down substantially (\$163) due to the decline in rates seen over the past year.

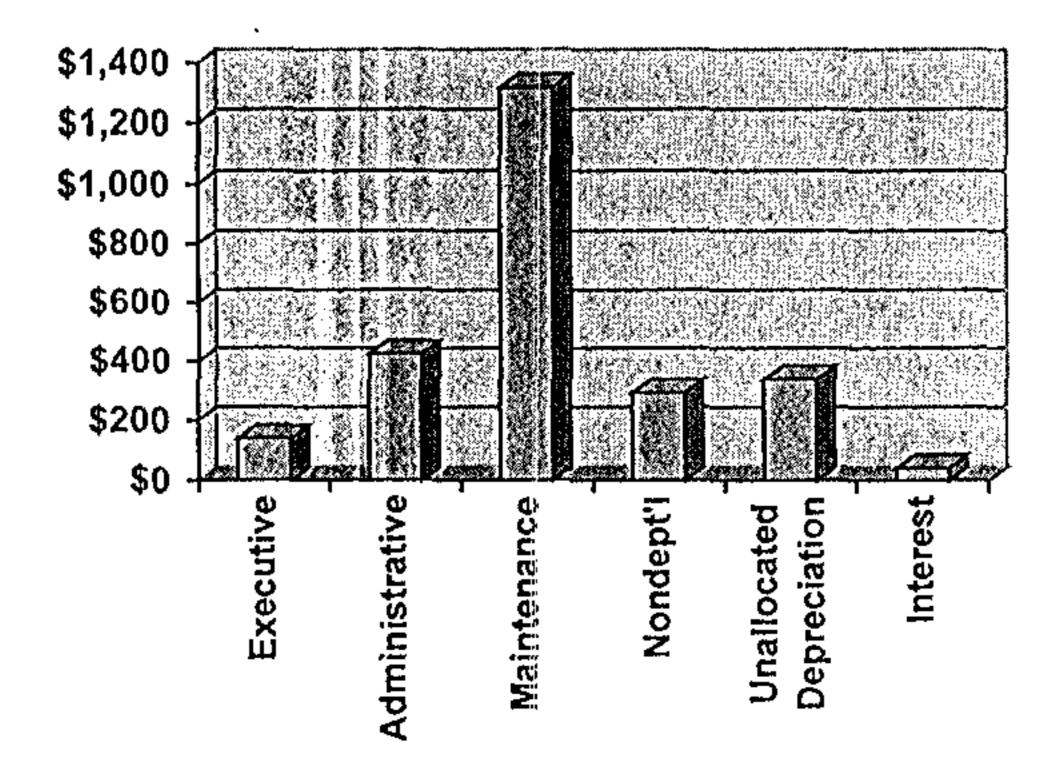

A breakdown of the revenues received by the District's governmental activities is as follows:

Revenues by Source - Governmental Activities

For the most part, increases in expenses closely paralleled inflation and growth in the demand for services. The maintenance department continues to make up most of the expenses of the District (51.5 percent).

West Jefferson Levee District - Expenses by Function/Segment

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the District's "governmental funds" is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2002, the District's governmental funds reported combined ending fund balances of \$4,624, a decrease of \$(571) or 10.9 percent in comparison with the prior year. Approximately 98 percent of this total amount (\$4,505) constitutes unreserved fund balance, which is available for spending at the government's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed to pay debt service (\$119).

The General fund is the chief operating fund of the District. At June 30, 2002, unreserved fund balance of the General fund was \$589 (which is 100 percent of the total fund balance). As a measure of the General fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved and total fund balance represents 26.4 percent of total general fund expenditures.

The fund balance of the District's General fund increased by \$404 during the current fiscal year. Key factors in this growth are as follows:

- ➤ A roll-forward of the millage rate from 4.89 in 2000 to 5.03 in 2001 was the main reason there was a \$312 increase in property taxes. Some of the increase was also due to slightly higher assessed values.
- > State sources increased/decreased by \$30 because the increase in property taxes affected the state revenue sharing distribution.
- Interest income decreased by \$25 due to declining rates.
- > Miscellaneous revenues decreased by \$124 due to a nonrecurring claim settlement in the prior year.

The Emergency Special Revenue fund has a total fund balance of \$731 at year-end, all of which is designated to be used only in emergencies.

The Westbank Hurricane Levce Capital Project fund has a total fund balance of \$1,218, all of which is dedicated to the hurricane protection levee project. The fund balance of this fund decreased by \$(1,429) during the current fiscal year. The decrease is primarily due to ongoing construction on the levce project.

The Lafitte Levee Capital Project fund has a total fund balance of \$1,967. This money is to be used for additional planning work in the Lafitte area as well as for matching possible future federal grant money. This fund saw a current year increase to fund balance of \$431, funded primarily from operating transfers from the General Fund.

GENERAL FUND BUDGETARY HIGHLIGHTS

The District did not make any amendments to its original budget during the fiscal year ended June 30, 2002. Revenues and other sources came in 7.7 percent over the original budget and expenditures and other uses were 5.3 percent under the original budget. The main overage in the revenues came in property taxes, due to the roll-forward of the millage rate to 5.03. The largest under budget items were the maintenance department (\$117) and capital outlay (\$61). The maintenance department was under budget in salaries (\$46) and levee supplies (\$89).

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets. The District's investment in capital assets for its governmental activities as of June 30, 2002 amounts to \$40,673 (net of accumulated depreciation). This investment in capital assets includes land, buildings, furniture and fixtures, machinery, vehicles and equipment, and infrastructure (i.e., levees, floodwalls, floodgates, etc.). The District's investment in capital assets increased by \$6,275 or 17.9 percent this year.

Major capital asset events during the current fiscal year included the following:

- > \$263 was spent on new tractors and mowers.
- Construction in progress related to the Westbank Hurricane Protection Levee reached \$17,862. Certain lifts on the West of Harvey section were begun during the year. Also, certain lifts were completed. Total capitalized infrastructure amounted to \$18,276 at June 30, 2002.

WEST JEFFERSON LEVEE DISTRICT'S CAPITAL ASSETS (NET OF DEPRECIATION)

	Governmental Activities					
		2002		2001		
Land	\$ _	6,211	\$	6,211		
Buildings		753		828		
Furniture and fixtures		21		28		
Machinery, vehicles and equipment		660		523		
Infrastructure		15,886		15,642		
Construction in progress		17,862		11,886		
Total	\$_	41,393	\$ _	35,118		

Additional information on the District's capital assets can be found in Note D.3 on pages 29 and 30.

Long-term Debt. At the end of the current fiscal year, the District had total bonded debt outstanding of \$720. This amount is made up of excess revenue bonds issued in 1997. These certificates are secured by, and payable from, a pledge of the annual revenues of the District, sufficient to pay principal and interest through April 1, 2006.

WEST JEFFERSON LEVEE DISTRICT'S OUTSTANDING LONG-TERM DEBT GENERAL OBLIGATION AND REVENUE BONDS

		Gover Act	nment ivities	aí
		2002		2001
1996 Excess Revenue Bonds	\$	720	\$	880
Total	\$	720	\$	880

The District's total long-term debt decreased by \$156 or 15.8 percent during the current fiscal year. The key factor in this decrease was the payments on the 1996 bonds.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation. The current debt limit for the District is \$\$57,962. The District has no general obligation debt subject to this limitation.

Additional information on the District's long-term debt can be found in Note D.5 on pages 31 and 32 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The unemployment rate for the Parish of Jefferson is currently 4.6 percent, which is an increase from a rate of 3.9 a year ago. While an increase was noted, it still compares favorably to the state averages.
- > Inflationary trends in the region compare favorably to national indices.
- The ad valorem millage rate levied for the 2002 tax roll was 5.03 mills. This is the same as the prior year. Assessed values are expected to remain at or about the same as in 2001 (\$579,619).

All of these factors were considered in preparing the District's budget for the 2002-2003 fiscal year.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Board President, West Jefferson Levee District, 7001 River Road, Marrero, LA 70072.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2002

Amounts reported for governmental activities in the Statement of Activities (page 13) are different because:

Net change in fund balances - total governmental funds (page 15)

\$ (570,735)

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

6,302,946

The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net assets.

(27,773)

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the payment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas, these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

WEST JEFFERSON LEVEE DISTRICT STATE OF LOUISIANA NOTES TO FINANCIAL STATEMENTS June 30, 2002

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the West Jefferson Levee District (the District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

1. Reporting Entity

GASB Codification Section 2100 establishes criteria for determining the governmental reporting entity and its component units. Component units are defined as legally separate organizations for which the elected officials of a primary government are financially accountable. The criteria used in determining whether financial accountability exists include the appointment of a voting majority of an organization's governing board, the ability of the primary government to impose its will on that organization or whether there is a potential for the organization to provide specific financial benefits or burdens to the primary government. Fiscal dependency may also play a part in determining financial accountability. In addition, a component unit can be another organization for which the nature and significance of its relationship with a primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The District is a political subdivision of the State of Louisiana, organized to provide flood protection for those areas contained within the Parish of Jefferson to the west of the Mississippi River. The District was incorporated on August 1, 1980, under the provisions of Act 820 of the 1980 Legislative session, as amended (Civil Service code). The control and management of the affairs of the District are vested in a Board of Commissioners composed of nine qualified electors residing within the District. The members of the Board are appointed by the Governor of the State of Louisiana from a list of nominations submitted by the members of the Legislature serving that portion of Jefferson Parish located within the District.

Based on the criteria described above, it has been determined that the West Jefferson Levee District is a component unit of the State of Louisiana for financial reporting purposes. The accompanying statements present only transactions of the District.

Annually, the State of Louisiana (the primary government) issues general purpose financial statements which include the activity contained in the accompanying financial statements. The State's general purpose financial statements are issued by the Louisiana Division of Administration - Office of Statewide Reporting and Accounting Policy and are audited by the Louisiana Legislative Auditor.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2002

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Government-wide and Fund Financial Statements

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Because of the nature of the District's operations, the District reports only governmental activities.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund Financial Statements

Separate financial statements are provided for the governmental funds of the District. Funds are used by the District to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. The funds of the District are classified into the "governmental" category. The category, in turn, is divided into separate "fund types".

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital project funds), and the servicing of general long-term debt (debt service funds). The General Fund is used to account for all financial activities of the general government not accounted for in some other fund. Major individual governmental funds are reported as separate columns in the fund financial statements.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2002

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

The Emergency Special Revenue Fund accounts for monies that are restricted to expenditures related to emergencies.

The Westbank Hurricane Protection Levee Capital Project Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities and structures related to the westbank hurricane levee.

The Lafitte Levee Capital Project Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities and structures in the area of the Town of Jean Lafitte.

3. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District considers property taxes as available if they are collected within 60 days after year end. A one-year availability period is used for revenue recognition for all other governmental fund revenues. Property taxes, intergovernmental revenues, and interest associated with the current fiscal year are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt, as well as expenditures related to compensated absences and claims and judgments, only when payment is due.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2002

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED

4. Assets, Liabilities, and Net Assets or Equity

A. Cash and Investments

For reporting purposes, cash and cash equivalents includes amounts in demand deposits, time deposits, and certificates of deposit. Louisiana Revised Statutes allow the District to invest in time certificates of deposit of state banks organized under the laws of Louisiana, national banks having their principal office in the State of Louisiana, in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

State statutes authorize the District to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds and repurchase agreements. In accordance with GASB Statement No. 31, investments, if any, are generally stated at fair value. If the investment is in money market securities and has a maturity date of less than 90 days from the balance sheet date, the investment is stated at cost or amortized cost.

B. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at year end are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". As a general rule, all interfund balances are eliminated in the government-wide financial statements.

C. Inventories

The cost of materials and supplies acquired by the District are recorded as expenditures at the time of purchase. It is management's opinion that the inventory of such materials and supplies at June 30, 2002 would not be material to the financial statements.

D. Prepaid Insurance

Payments made to vendors for services that will benefit periods beyond June 30, 2002, are recorded as expenditures when paid. It is management's opinion that the prepaid amount at June 30, 2002, if any, would not be material to the financial statements.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2002

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., levees, floodwalls, sector gates and similar items), are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$500 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed and are included in construction in progress. The levees are divided into reaches and are capitalized as such. Any major "lifts" or improvements to an existing levee/reach is capitalized as an addition to that levee/reach.

Property, plant, equipment, and infrastructure is depreciated using the straight-line method (with a mid-year convention) over the following estimated useful lifes:

Asset Category	Useful Life in Years
Buildings	40
Furniture and fixtures	5
Autos and trucks	5
Mowers	5
Tractors	7 - 10
Heavy equipment	5
Radios	3
Infrastructure (levees, floodwalls, floodgates, etc.)	50

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2002

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service to the District. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. In accordance with GASB Statement No. 16, an additional liability is recorded for salary related payments associated with the future payment of compensated absences.

G. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are recognized as liabilities in the applicable governmental activities statement of net assets.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures. Payments of principal and interest are recorded as expenditures only when due.

H. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balances for amounts that are not available for appropriation or are legally restricted by outside parties for a specific future use. Designated fund balances represent tentative plans for future use of financial resources that are subject to change..

.

WEST JEFFERSON LEVEE DISTRICT STATE OF LOUISIANA NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2002

NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Assets

The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$(830,502) difference are as follows:

Revenue Bonds Payable	\$	(720,000)
Compensated absences		(110,502)
Net adjustment to reduce fund-balance - total governmental funds to	æ	(020 502)
arrive at net assets - governmental activities	<u> </u>	(830,502)

2. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$6,302,946 difference are as follows:

Capital outlay	\$	6,859,493
Depreciation expense		(556,547)
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets - governmental		
activities	\$_	6,302,946

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2002

NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

Another element of that reconciliation states that "The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to increase net assets." The details of this \$(27,773) difference are as follows:

In the statement of activities, only the gain (loss) on the sale of capital assets is reported. However, in the governmental funds, the proceeds from the sale increases financial resources. Thus, the change in net assets differs from the change in fund balance by the cost of the capital assets sold

\$ (27,773)

Net adjustment to increase (decrease) net changes in fund balances total governmental funds to arrive at changes in net assets governmental activities

\$ (27,773)

NOTE C - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

1. Budget

Formal budgetary accounting is employed as a management control device during the year for the General Fund. Budgetary data for the Special Revenue Fund is not presented since these funds are restricted for emergency purposes only, and are considered unpredictable. Budgetary data for the Capital Project funds are not presented since these funds are budgeted over the life of the respective project, not on an annual basis. Formal budgetary accounting is not employed for the Debt Service Fund because effective control is alternatively achieved through the indenture provisions of the bonds/certificates.

Expenditures may not exceed appropriations at the object level within the fund. All annual appropriations which are not expended lapse at year end.

The General Fund's budget is adopted on a basis consistent with generally accepted accounting principles (GAAP). Encumbrances are not recorded for budgetary purposes

The Board of Commissioners of the District submits an annual budget to the Department of Transportation and Development - Office of Public Works (DOTD) and the Legislative Auditor for the succeeding fiscal year. The operating budget includes proposed expenditures and the means of financing them.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2002

NOTE C - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)

The DOTD reviews the budget and makes recommendations pertaining thereto to the Board of Commissioners of the District and the Legislative Auditor. Not less than ninety days before the end of the fiscal year, the Board of Commissioners adopts the annual budget after considering the recommendations of the DOTD. Amendments to the budget are made by the Board from time to time as is necessary.

The original budget was adopted on March 16, 2001. No subsequent amendments were made during the year, thus the budgeted amounts are included as both the original and final budgets in the accompanying statements.

2. Expenditures in Excess of Appropriations

For the year ended June 30, 2002, expenditures exceeded budget at the object level as follows:

Fund	Fund Expenditures		Excess		
General Fund Executive	140,447	138,250 277,200	(2,197)		
Nondepartmental	291,585	277,200	(14,385)		

Executive expenditures were over budget due to unexpected travel, primarily in the commissioners department, and professional services. These overages were offset by savings in the commissioners' per diems and life insurance, resulting in a net overage of \$(2,197). Nondepartmental expenditures were over budget mainly due to an increase in the amount withheld by the Tax Collector for the state retirement plans. All of the over budget items were paid for out of available fund balance.

NOTE D - DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

1. Deposits and Investments

The carrying amount of the District's deposits at June 30, 2002 was \$5,109,726 and the bank balance was \$6,026,037. Under state law these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. The bank balance is categorized as follows:

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2002

NOTE D - DETAILED NOTES ON ALL ACTIVITIES AND FUNDS (CONTINUED)

Risk Category	Cash	 tificates of Deposit	Total Amount
a. Insured (FDIC) or collateralized with securities held by the entity or its agent in the entity's name	\$ 6,026,037	\$ 0 :	6,026,037
b. Collateralized with securities held by the pledging financial institution's trust department or agent in the entity's name	0	0	0
 Uncollateralized (including securities held for the entity by the pledging financial institution or its agent, but not in the entity's name) 	 0	 0	0
Total	\$ 6,026,037	\$ 0 9	6,026,037

Although the District shows no investments at June 30, 2002, it did invest in various U.S. Government securities during the year. No losses were incurred on the investments as all were held to maturity.

In addition, the District has two escrow accounts related to the Westbank Hurricane Protection Levee Project. In the first, the District has \$8,063,330 on deposit with the U.S. Army Corps of Engineers (COE). The second account has \$2,687,112 which was contributed by the Parish of Jefferson for construction of the Mount Kennedy Pump Station. These amounts are not reported on the financial statements as they are being held in jointly-owned escrow accounts pursuant to the cooperative agreements signed with the COE. As the District makes deposits into the escrow accounts, an expenditure is recognized. COE is allowed to draw on the escrow funds as needed in connection with the Westbank Hurricane Protection Levee project (See Note F).

2. Receivables

Receivables at year end for the government's individual major funds and nonmajor funds, in the aggregate, include \$500,642 due from the State of Louisiana in connection with the 2001 State Capital Outlay appropriation. This amount is shown as a receivable in the Westbank Hurricane Protection Levee Capital Project Fund (see Note F.2).

NOTE D - DETAILED NOTES ON ALL ACTIVITIES AND FUNDS (CONTINUED)

Depreciation expense was charged to the functions/segments of the District as follows:

Governmental activities:		
Public works		
Executive	\$	0
Administrative		33,100
Maintenance		183,794
Unallocated depreciation (depreciation on the levee systems are not allocable to the District's segments)		339,653
Total depreciation expense - governmental activities	\$	556,547

At year end, the District had \$17,865,210 in construction in progress. \$15,018,875 of this amount relates to the Westbank Hurricane Protection Levee Project - East of Harvey Canal and West of Harvey Canal segments (See Note F for additional details) and \$2,434,508 relates to the Lafitte Levee system.

4. Revenue/Grant Anticipation Notes Payable

Communication activities

As described in Note F.2, during FY 99/00, the District obtained another Priority 5 line of credit from the State through its State Capital Outlay Program in the amount of \$5,000,000. In order to expedite the construction of the levee these funds are dedicated to, a revenue anticipation note agreement was entered into with a local bank on April 27, 2001. The Capital Outlay money is pledged and dedicated to paying off these notes. The notes, together with accrued interest at the rate of 4.52% per annum, were due and payable on the earlier of (1) the actual receipt of funds from the State under the Capital Outlay Program or (2) April 27, 2002. In total, the District drew down \$1,026,989 under this agreement. The amount was paid back on January 24, 2002, along with interest of \$19,799.

As described in Note F.2, during FY 01/02, the District obtained another Priority 5 line of credit from the State through its State Capital Outlay Program; this one in the amount of \$2,450,000. In order to expedite the construction of the levee these funds are dedicated to, a grant anticipation note agreement was entered into with a local bank on March 6, 2002. The Capital Outlay money is pledged and dedicated to paying off these notes. The notes, together with accrued interest at the rate of 4.52% per annum, are due and payable on the earlier of (1) the actual receipt of funds from the State under the Capital Outlay Program or (2) December 15, 2002. Through June 30, 2002, \$15,000 has been drawn down under this agreement and is shown as a liability in the Westbank Hurricane Protection Levee Capital Project fund.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2002

NOTE D - DETAILED NOTES ON ALL ACTIVITIES AND FUNDS (CONTINUED)

5. Long-term Debt

Excess Revenue Bonds

On January 31, 1997, the District issued \$1,420,000 in 1996 Series Excess Revenue Bonds with an average interest rate of 4.56 percent to advance refund \$1,420,000 of outstanding 1986 Series Excess Revenue bonds with an average interest rate of 8.11 percent. These bonds are secured by, and are payable from, a pledge of the annual revenues of the District, sufficient to pay principal and interest, through April 1, 2006. At June 30, 2002, \$118,720 was available in the Debt Service Sinking Fund to service the debt. Bonds outstanding at June 30, 2002 totaled \$720,000, with interest rates ranging from 4.4 to 4.8 percent. Annual debt service requirements to maturity, including interest of \$86,825, are as follows:

Year Ending June 30,	· . ·	Principal	ipal Interest			Total			
2003	\$	170,000	\$	33,535	\$	203,535			
2004		170,000		25,875		195,875			
2005		185,000		18,055		203,055			
2006		195,000		9,360		204,360			
Total	\$	720,000	\$	86,825	\$	806,825			

Compensated Absences

District employees, both classified and unclassified, earn annual and sick leave at various rates depending on the number of years in service. The amount of annual and sick leave that may be accumulated by each employee is unlimited.

Upon termination, an employee is compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, the number of hours of unused sick leave is computed and considered in computing the years of service for retirement benefit purposes. Compensatory time is accrued up to a balance of 240 hours at a rate of time and one-half. An employee who exceeds 240 hours receives either monetary consideration or compensatory time for the amount of hours earned in excess of the 240 hour limit. Upon termination, an employee is paid for unused compensatory time.

NOTE D - DETAILED NOTES ON ALL ACTIVITIES AND FUNDS (CONTINUED)

Changes in Long-Term Debt

The following is a summary of changes in general long-term obligations of the District for the fiscal year ended June 30, 2002:

Type of Debt	Balance Additions July 1, 2001 (Reductions)		-	Balance June 30, 2002			Due Within One Year		
1996 Excess Revenue Bonds	\$ 880,000	\$	(160,000)	\$	720,000	\$	170,000		
Compensated Absences	 106,926		3,576		110,502		110,502		
Total	\$ 986,926	\$	(156,424)	\$	830,502	\$	280,502		

The government-wide statement of net assets includes the \$280,502 as payable within one year. The remaining \$550,000 is displayed as "noncurrent liabilities, due in more than one year".

7. Reservations and Designations of Fund Balances

The nature and purpose of the reserves of fund balances (or restricted net assets) shown on the government-wide and fund financial statements are as follows:

Reserved for Debt Service

This \$118,720 reserve of the Debt Service Fund fund balance represents the amounts reserved for payment of principal and interest maturing in future years.

While designations are not shown on the face of the fund financial statements, several designation of fund balances do exist at June 30, 2002. They are as follows:

Designated for Emergencies

The District adopted a policy whereby any surplus fund balance remaining at year end in the General Fund is to be restricted for emergency purposes. These funds are not available for normal operating activities and can only be expended upon the official declaration of an emergency by the Board. For the 00/01 and 01/02 fiscal years, this transfer has been overridden by the transfer to the Lafitte Levee Fund. At year end, \$731,451 is designated for this purpose out of the Special Revenue Funds fund balance.

Designated for Future Capital Outlay

This \$60,994 designation of the General Fund fund balance represents the amount of surplus funds generated by the capital outlay accounts coming in under budget. Per the Board's policy, these funds are designated for future capital outlays.

Designated for Matching Statewide Flood Control

This \$478,116 designation of the Westbank Hurricane Protection Levee Capital Project Fund fund balance represents the amount of funds available to match state appropriations under the Statewide Flood Control - Westbank Hurricane Protection Levee Project. See Note F.2.

Designated for Matching Federal Funds on Lafitte Levee

This \$1,966,619 designation of the Lafitte Levee Capital Project Fund fund balance represents the amount of funds available to match future federal grants for construction of the Lafitte Levee.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2002

NOTE D - DETAILED NOTES ON ALL ACTIVITIES AND FUNDS (CONTINUED)

8. Ad Valorem Taxes

Article 6, § 39 of the 1974 Louisiana Constitution provides that for the purposes of constructing and maintaining levees, levee drainage, flood protection, hurricane flood protection, and for all other purposes incidental thereto, the District may levy annually, a tax not to exceed five mills. If the District needs to raise additional funds in excess of the amount collected constitutionally, the taxes in excess of five mills must be approved by a majority vote of the electors.

The District levies an ad valorem (property) tax on real property within the District to finance operations. The levy is generally made as of November 15 of each year. The tax is then due, and becomes an enforceable lien on the property, on the first day of the month following the filing of the tax roll by the Parish assessor with the Louisiana Tax Commission (usually December 1). The tax is delinquent 30 days after its due date.

Ad valorem taxes are levied based on property values determined by the Jefferson Parish Assessor's Office (a separate entity). All land and residential improvements are assessed at 10 percent of its fair market value, and other property at 15 percent of its fair market value. Taxes are billed and collected by the Jefferson Parish Sheriff's Office (a separate entity) which receives a certain millage for its services. The taxes remitted by the Sheriff to the District are net of assessor's commission and pension fund contributions.

The number of mills levied for operations on the 2001 and 2000 tax rolls were 5.03 and 5.03, respectively.

NOTE E - CONTINGENCIES

1. Risk Management

The District is exposed to various risks of loss resulting from personal injury; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. To protect against these risks of loss, the District purchases various types of insurance from commercial carriers.

Under these policies, general liability coverage is provided for up to a maximum of \$1,000,000 per occurrence (\$2,000,000 in the aggregate); automobile coverage is provided for up to \$500,000 per occurrence; and worker's compensation is provided at the statutory limits of \$1,000,000/\$1,000,000/\$1,000,000. In each policy, the District is responsible for the applicable deductible.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2002

NOTE E - CONTINGENCIES (CONTINUED)

2. Contingent Liabilities

Federal and State Financial Assistance

Amounts received or receivable from grantor agencies are subject to audit and adjustments by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

Litigation

The District is a defendant in a number of claims and lawsuits. The District's attorney has reviewed these claims and lawsuits in order to evaluate the likelihood of an unfavorable outcome to the District and to arrive at an estimate, if any, of the amount or range of potential loss to the District. As a result of such review, the various claims and lawsuits have been categorized into "probable", "reasonably possible", and "remote" categories, as defined in GASB Codification Section C50 for Claims and Judgments. In the opinion of management, the District has adequate legal defenses or insurance coverage with respect to each of these claims and lawsuits and does not believe that they will materially affect the District's financial statements.

NOTE F - JOINT VENTURE - HURRICANE PROTECTION LEVEE

1. Description of Project

Pursuant to a local cooperative agreement dated December 18, 1980, the District and the U.S. Army Corps of Engineers (COE) began constructing a hurricane protection levee system within the District's boundaries under a "cost-sharing" agreement. Under the original agreement, the project was limited to the West of Harvey Canal and the District was to provide 35 percent of the cost as a local match. The District's share was to be made up of expropriations, easements, land acquisitions, relocation assistance and in-kind construction work. Upon completion of the levee, the District would be responsible for maintenance and repairs of the levee system (i.e., fertilizing and cutting the grass, monitoring crossings, minor repairs, etc.).

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2002

NOTE F - JOINT VENTURE - HURRICANE PROTECTION LEVEE (CONTINUED)

Pursuant to the authority vested in LRS 38:81, on May 5, 1993, the Governor of the State of Louisiana designated the DOTD, a state agency, as the "non-federal" sponsor of the project and relegated the District to the role of "executive agent" for the DOTD on the project. Act 1012 of the 1993 Legislative session and a new cooperative agreement, dated November 22, 1995, between the District and DOTD allowed modification of the agreement with the COE in order to set forth the responsibilities of each party in relation to the project. Under the current arrangement, DOTD is now responsible for providing the "non-federal" local share of the project cost and to provide the District with certain engineering services, as needed. The District is to act as "executive agent" for DOTD for purposes of administering the project. This arrangement was finalized in Amendment No. 1 to the Local Cooperative Agreement on April 26, 2000.

Under the Water Resources and Development Act of 1996, two additional phases were added to the project - Lake Cataouatche and the East of Harvey Canal levee. The total project cost is currently estimated at \$312.0 million. Of this, \$203.0 is federal and \$109.0 is state/local (i.e., "non-federal"). The non-federal local share of the project is being funded in various ways. A significant portion is coming from "expenses of non-federal interest" allowed by the COE for interim and compatible expenditures incurred by the District.

2. Funding of the Project

Each year, the COE notifies the State and the District of the amount of cash assistance (or equivalent work) required of the "non-federal" sponsor each fiscal year. The matching funds are derived from local revenues of the District and State Capital Outlay or Statewide Flood Control monies. Any cash match is deposited into escrow accounts set up with the COE. Non-cash matches and the District's direct expenditures are submitted as "credits" to the COE to be applied against the non-federal share.

During the fiscal year ended June 30, 2002, the COE was scheduled to provide \$10,955,000 towards the project and the District expended \$6,445,264 in direct costs, bringing the Federal share to date to \$74,710,000 and the local share (excluding creditable indirect costs) to \$40,352,463. As of June 30, 2002, the cost to complete the project is estimated to be approximately \$196.9 million (\$128.3 million federal and \$68.6 million non-federal).

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2002

NOTE F - JOINT VENTURE - HURRICANE PROTECTION LEVEE (CONTINUED)

In addition, the District has obtained commitments from the State of \$11,391,030 through the Statewide Flood Control Program. This amount represents 70 percent of the estimated construction cost of the Westwego to Harvey Canal phase to be borne by the non-federal sponsor. The District is required to put up the remaining 30 percent as a match. To date, the entire \$11,391,030 has been appropriated by the State. Of this amount, \$9,927,724 has been expended, leaving an available balance of \$1,463,306. This balance will result in a required future match of \$478,116. The District has designated a portion of the West of Harvey Canal Capital Project Fund's fund balance for purposes of matching the State funds.

Funding has also been received through the State Capital Outlay Program (State Project No. 750-99-0102). The following amounts have been received or accrued under these programs:

Year Awarded	Am	ount Awarded	Ar	nount Expended in Prior Years	 Amount Expended in Current Year		 Balance
95/96	\$	200,000	\$	(200,000)	\$ 0	,	\$ 0
96/97		500,000		(500,000)	0		0
98/99		1,000,000		(1,000,000)	0		0
98/99		600,000		(600,000)	0		0
98/99		5,400,000		(5,399,931)	0		69
99/00		5,000,000		(194,522)	(3,955,687)		849,791
01/02		2,450,000		0	0		 2,450,000
•	\$	15.150.000	\$	(7.894.453)	\$ (3.955,687)		\$ 3,299,860

Of this amount, \$500,642 has been accrued as receivable from the State at June 30, 2002.

3. Status of the Project

As of June 30, 2002, all of the major reaches of the Westwego to Harvey Canal phase have been completed and are capitalized into fixed assets as infrastructure. Some reaches are entering a "lift" phase, which will be accounted for as an addition to that particular reach upon completion. The East of Harvey and Lake Cataouatche sections are in the design phases and are recorded as construction in progress. The entire project is expected to be completed by 2014.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

June 30, 2002

NOTE G - OTHER INFORMATION (CONTINUED)

1. Pension Plan

Plan Description and Provisions

The District contributes to the Louisiana State Employees' Retirement System (the "System"), a cost-sharing multiple-employer defined benefit public employee retirement system (PERS). The System is a statewide public retirement system for the benefit of State Agencies and their staffs, which is administered and controlled by a separate board of trustees. The System was established and provided for within Title 11 of Chapter 401 of the Louisiana Revised Statutes.

Contributions of participating agencies, together with shared local and state revenues, are pooled within the System to fund accrued benefits, with employer/employee contribution rates approved by the Legislature. The System provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to Louisiana State Employees' Retirement System, 8401 United Plaza Boulevard, Baton Rouge, Louisiana 70809.

Funding Policy

In addition to ad valorem and insurance premium taxes that are remitted to the System (which constitute the major funding of the System), plan members are required by State statute to contribute 7.50 percent of gross salary and the District is required to contribute at an actuarially determined rate. The current rate is 13.00 percent of annual covered payroll. The contribution requirements of plan members and the District are established and may be amended by the System's Board of Trustees.

The contributions for the year ended June 30, 2002 were as follows:

		Amount	Percent of Covered Payroll	
Employee	\$	55,573	7.50%	
Employer	\$	96,636	13.00%	

The District's contributions for the previous two fiscal years were \$92,375 and \$87,894, which equaled the required contributions for each year.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2002

NOTE G - OTHER INFORMATION (CONTINUED)

2. Deferred Compensation

The District offers its employees a deferred compensation plan (the "plan") created in accordance with Internal Revenue Code (IRC) Section 457. The plan, available to all employees, permits them to defer a portion of their salary until future years. The District matches any contributions into the plan on a one-for-one basis up to \$35. During the year, the District expended \$22,371 as a match on deferred compensation.

The deferred compensation is not available to employees until termination, retirement, death, or an unforeseeable emergency. Investments are managed by the Plan's trustee (Great Western). The choice of the investment option(s) are made by the Plan participants.

In 1996, the U.S. Congress passed the Small Business Job Protection Act of 1996, which requires that employer governments place all amounts deferred under IRC Section 457 into a trust for the exclusive benefit of participants and their beneficiaries. Thus, the District does not have ownership of the plan assets and does not report them in the District's financial statements.

3. Post-employment Health Care Benefits

The District provides certain continuing health care and life insurance benefits for its retired employees. Substantially all of the District's employees become eligible for those benefits if they reach normal retirement age while working for the District. Those benefits for retirees and similar benefits for active employees are provided through an insurance agency whose monthly premiums are paid jointly by the employee and the District. The District recognizes the cost of providing these benefits (District's portion of premiums) as an expenditure when paid during the year, which was \$164,610 for the year ended June 30, 2002. The cost of providing those benefits for 9 retirees is not separable from the cost of providing benefits for the 29 active employees.

NOTE H - PRIOR-PERIOD ADJUSTMENT

.. - - .

The fund balances/net assets have been restated to correct an error in the prior period. The transfer from the General Fund to the Lafitte Levee Capital Project fund should have been accrued as of June 30, 2001. The effect of this restatement on fund balances/net assets is as follows:

NOTES TO FINANCIAL STATEMENTS (CONTINUED) June 30, 2002

NOTE H - PRIOR PERIOD ADJUSTMENT (CONTINUED)

	G	eneral Fund	afitte Levec al Project fund	 Total
Fund Balance, as previously reported	\$	606,831	\$ 1,113,323	\$ 1,720,154
Prior-period adjustment to correctly accrue the transfer to the Lafitte Levee Capital Project Fund		(422,076)	422,076	0
Fund Balances, as restated	\$	184,755	\$ 1,535,399	\$ 1.720.154

The net effect on excess of revenues over expenditures and other sources (uses) was to decrease the General Fund's excess by \$422,076 and to increase the Lafitte Levee Capital Project Fund by \$422,076.

NOTE I - CHANGES IN ACCOUNTING PRINCIPLES

For the fiscal year ended June 30, 2002, the District has implemented GASB No. 33, "Accounting and Financial Reporting for Non-Exchange Transactions", GASB No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments", GASB Statement No. 36, "Recipient Reporting for Certain Shared Non-exchange Revenues", GASB Statement No. 37, "Basic Financial Statement - and Management's Discussion and Analysis -for State and Local Governments - Omnibus", and GASB Interpretation No. 6, "Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements".

As restatement of prior financial statements is not practical, the cumulative effect of applying these principles is reported as a restatement of beginning net assets on the Government-wide Statement of Activities. The net effect of \$34,131,271 was added to prior year's reported fund balances to arrive at a net asset balance at June 30, 2001 (i.e., beginning of year) of \$39,326,043.

COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES

(THIS PAGE LEFT BLANK INTENTIONALLY)

COMBINING STATEMENTS NONMAJOR GOVERNMENTAL FUNDS

Debt Service Funds

Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Sinking fund - This fund is used to account for servicing the debt related to the 1996 Excess Revenue Bonds.

Capital Project Funds

Capital Project Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities and structures.

Mississippi River Levee - Used to account for the activity and federal funds received for the relocation of pipelines and utilities located along Item M98.3 to 95-R of the Mississippi River Levees, Gretna Levee Enlargement, I-Wall Setback, and Concrete Slope Pavement, Phase IIB.

SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For The Year Ended June 30, 2002

FEDERAL AGNECY/	CFDA	GRANT/	GRANT	PERIOD
PROGRAM TITLE	NUMBER	PROJECT NUMBER	FROM	10
DIRECT ASSISTANCE	-	-		
FEDERAL EMERGENCY MANAGEMENT AGENCY Passed through State Department of Military Affairs: Emergency Disaster - Public Assistance Grants	83.544	FEMA 1380 DR-LA	N/A	N/A
INDIRECT ASSISTANCE U.S. Army Corps of Engineers West Bank Hurricane Protection Levee TOTAL FEDERAL ASSISTANCE	Unknown	N/A	N/A	N/A

(1) These amounts represent the indirect assistance received under a Local Cooperative Agreement with the corps of Engineers, the Water Resources & Development Acts of 1986 and 1996 provided for the construction of a hurricane protection leved within the District's boundaries. Pursuant to the agreement, the District, LA-DOTD, and the U.S. Army Corps of Engineers are constructing the levec as a joint-venture. LA-DOTD and the District are to provide 35 percent of the cost as a local match (i.e., the "non-federal" share). This "non-federal" share is to be made up of expropriations, easements, land acquisitions, and relocation assistance. Although no direct financial assistance is received, of the \$312.0 million project cost, \$203.0 is federal and \$109.0 is non-federal. For the year ended June 30, 2001, the U.S. Army Corps of Engineers was scheduled to provide \$10,955,000 to the project, while the District expended \$6,445,264 on the West Bank Hurricane Protection Levee Project. Despite the fact that no direct federal assistance is received, this cooperative agreement program will be treated as a "major" program under OMB Circular A-133.

NOTES TO SCHEDULE:

1. This schedule is prepared on the full accrual (GAAP) basis of accounting.

.

2. All revenues and expenditures recognized by the District during its fiscal year are reflected on this schedule.

	OF LOUISIANA T JEFFERSS LEVEE DISTRICT (BTA)
	SEMENT'S DISCUSSION AND ANALYSIS
AS OF	<u> ひいんど 32,2002</u>
present year en and cur in conju	anagement's Discussion and Analysis of the <u>District</u> 's 's (BTA) financial performance is a narrative overview and analysis of <u>District</u> 's (BTA) financial activities for the ided June 30, 2002. This document focuses on the current year's activities, resulting changes trently known facts in comparison with the prior year's information. Please read this document unction with the additional information contained in the transmittal letter presented on pages and the <u>District</u> 's (BTA) financial statements, which begin on page
FINAN	CIAL HIGHLIGHTS
	The <u>i):>+r:c+</u> 's (BTA) assets exceeded its liabilities at the close of fiscal year 2002 by <u>4 us 186</u> which represents a <u>9.7</u> % increase from last fiscal year. T he net-assets decreased by \$(or%).
*	The <u>D:strict</u> 's (BTA) revenue i ncreased \$ 23 (or ^%) and the net results from activities increased by \$ NIA (or _%).
* * *	
OVER	VIEW OF THE FINANCIAL STATEMENTS

The following graphic illustrates the minimum requirements for Special Purpose Governments Engaged in Business-Type Activities established by Governmental Accounting Standards Board Statement 34, <u>Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments</u>.

These financial statements consist of three sections - Management's Discussion and Analysis (this section), the basic financial statements (including the notes to the financial statements), and required supplementary information.

STATE OF LOUISIANA <u>west Gerrenss lever District</u> (BTA) MANAGEMENT'S DISCUSSION AND ANALYSIS AS OF <u>June 35</u> , 20 <u>0</u> で
Basic Financial Statements
The basic financial statements present information for the <u>District</u> (BTA) as a whole, in a format designed to make the statements easier for the reader to understand. The statements in this section include the Statement of Net Assets; the Statement of Revenues, Expenses, and Changes in Fund Net Assets; and the Statement of Cash Flows.
The <u>Statement of Net Assets</u> (pages) presents the current and long term portions of assets and liabilities separately. The difference between total assets and total liabilities is net assets and may provide a useful indicator of whether the financial position of theD:) to C (BTA) is improving or deteriorating.
The <u>Statement of Revenues</u> , <u>Expenses</u> , and <u>Changes in Fund Net Assets</u> (pages) presents information showing howD:, N:CH's (BTA) assets changed as a result of current year operations. Regardless of when cash is affected, all changes in net assets are reported when the underlying transactions occur. As a result, there are transactions included that will not affect cash until future fiscal periods.
The <u>Cash Flow Statement</u> (pages) presents information showing how <u>Dンナバル</u> 's

FINANCIAL ANALYSIS OF THE ENTITY

Statement of Net Assets
as of June 30, <u>02</u>
(in thousands)

(BTA) cash changed as a result of current year operations. The cash flow statement is prepared

using the direct method and includes the reconciliation of operating income(loss) to net cash

provided(used) by operating activities (indirect method) as required by GASB 34.

STATE OF LOUISIAN	AV.	
WEST DEFF LEVER	DIST	(BTA)
Notes to the Financi		
As of and for the year	ar ended J	lune 30, 20 ^{UT}

INTRODUCTION

The Pistics (BTA) was created by the Louisiana State Legislature under the provisions of Louisiana Revised Statute Act 820 of 1980. The following is a brief description of the operations of Distorate (BTA) which includes the parish/parishes in which the (BTA) is located:

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF ACCOUNTING

In April of 1984, the Financial Accounting Foundation established the Governmental Accounting Standards Board (GASB) to promulgate generally accepted accounting principles and reporting standards with respect to activities and transactions of state and local governmental entities. The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). This codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such principles.

The accompanying financial statements of $\frac{Vrst}{SrH} \frac{Vrst}{SrH} \frac{Vrst}{Vrst} \frac{SrH}{F}$ present information only as to the transactions of the programs of the $\frac{Drst}{SrL} \frac{F}{F}$ as authorized by Louisiana statutes and administrative regulations.

Basis of accounting refers to when revenues and expenses are recognized and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Revenue Recognition

Revenues are recognized using the full accrual basis of accounting; therefore, revenues are recognized in the accounting period in which they are earned and become measurable.

Expense Recognition

Expenses are recognized on the accrual basis; therefore, expenses, including salaries, are recognized in the period incurred, if measurable.

B. BUDGETARY ACCOUNTING

The appropriations made for the operations of the various programs of the $\frac{0.011 \cdot 0.011}{0.0011 \cdot 0.0011}$ (BTA) are annual lapsing appropriations.

- The budgetary process is an annual appropriation valid for one year.
- 2. The agency is prohibited by statute from over expending the categories established in the budget.
- 3. Budget revisions are granted by the Joint Legislative Budget Committee, a committee of the Louisiana Legislature. Interim emergency appropriations may be granted by the Interim Emergency Board.
- 4. The budgetary information included in the financial statements include the original appropriation plus subsequent amendments as follows:

Notes to the Financial States As of and for the year ended	ment		<u>APPROPRIATIONS</u>
Original approved budget	(EXP + tri-sters)	\$	3097,150
Amendments:			-
	(4000)		
Final approved budget	•	\$	3097,150

- vestments are deposited in the State Treasury, disregard Note C.)
 - DEPOSITS WITH FINANCIAL INSTITUTIONS

For reporting purposes, deposits with financial institutions include savings, demand deposits, time deposits, and certificates of deposit. Under state law the _____12:14-15 (BTA) may deposit funds within a fiscal agent bank selected and designated by the Interim Emergency Board. Further, the (BTA) may invest in time certificates of deposit of state banks organized under the laws of Louisiana, national banks having their principal office in the state of Louisiana, in savings accounts or shares of savings and loan associations and savings banks and in share accounts and share certificate accounts of federally or state chartered credit unions.

For the purpose of the Statement of Cash Flows, all highly liquid investments (including restricted assets with a maturity of three months or less when purchased) are considered to be cash equivalents.

Deposits in bank accounts are stated at cost, which approximates market. Under state law these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These pledged securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank in the form of safekeeping receipts held by the State

Deposits in bank accounts Other Certificates of Deposit (Describe) Total <u>Cash</u> Deposits in bank accounts per balance sheet Bank balances: 1. Insured or collateralized with securities held 6026,037 (2016037) by the entity or its agency in the entity's name 2. Collateralized with securities held by the pledging institution's trust department or agent in the entity's name 3. Uncollateralized, including any securities held for the entity but not in the entity's name \$ 6026.037 Total bank balances

NOTE: The "Total Bank Balances" will not necessarily equal the "Deposits in Bank Account per Balance Sheet".

The following is a breakdown by banking institution, program, account number, and amount of the balances shown above:

D. CAPITAL ASSETS

The fixed assets used in the Special Purpose Government Engaged only in Business-Type Activities are included on the statement of net assets of the entity and are capitalized at cost. Depreciation of all exhaustible fixed assets used by the entity are charged as an expense against operations. Accumulated depreciation is reported on the balance sheet. Depreciation for financial reporting purposes is computed by the straight-line method over the useful lives of the assets.

Note	es to the Financial Statement of and for the year ended June 30, 20 <u>0</u>
E.	INVENTORIES
	The unit's inventories are valued atNIA (method of valuation). These are perpetual inventories and are expensed when used.
F.	RESTRICTED ASSETS
	Restricted assets in theN (BTA) at(fiscal year end), reflected at \$\in the current assets section on Statement A, consist of \$\in cash with fiscal agent, \$\in receivables, and \$\investment in (identify the type investments held.)
	Restricted assets in the (BTA) at (fiscal year end), reflected at \$\ in the non-current assets section on Statement A, consist of \$\ in cash with fiscal agent, \$\ in receivables, and \$\ investment in (identify the type investments held.)
3.	LEAVE 1. COMPENSATED ABSENCES
	The <u>D:) Frich</u> (BTA) has the following policy on annual and sick leave: (Describe leave policy.)
	An example disclosure fellows:
	Employees earn and accumulate annual and sick leave at various rates depending on their years of service. The amount of annual and sick leave that may be accumulated by each employee is unlimited. Upon termination, employees or their heirs are compensated for up to 300 hours of unused annual leave at the employee's hourly rate of pay at the time of termination. Upon retirement, unused annual leave in excess of 300 hours plus unused sick leave is used to compute retirement benefits.
	The cost of leave privileges, computed in accordance with GASB Codification Section C60, is recognized as a current year expenditure in the General Fund when leave is actually taken; it is recognized in the enterprise funds when the leave is earned. The cost of leave privileges applicable to general government operations not requiring current resources is recorded in the general long-term obligations account group.
	2. COMPENSATORY LEAVE
	Employees who are considered having non-exempt status according to the guidelines contained in the Fair Labor Standards Act may be paid for compensatory leave earned (K-time). Upon termination or transfer, an employee will be paid for any time and one-half compensatory leave earned and may or may not be paid for any straight hour-for-hour compensatory leave earned. Compensation paid will be based on the employees' hourly rate of pay at termination or transfer. The liability for accrued payable compensatory leave at (fiscal close) computed in accordance with the Codification of Governmental Accounting and Financial Reporting Standards, Section C60.105 is estimated to be \$ The leave payable (is) (is not) recorded in the accompanying financial statements.

H. RETIREMENT SYSTEM

Substantially all of the employees of the (BTA) are members of the La State Employees Retirement System (System), a cost sharing multiple-employer, defined benefit pension plan. The System is a statewide public employee retirement system (PERS) for the benefit of state employees, which is administered and controlled by a separate board of trustees.

STATE OF LOUISIANA

<u>~じょう らじゃ にじゃんと アッシブ</u> (BTA)

Notes to the Financial Statement
As of and for the year ended June 30, 20 ** **

All full-time (BTA) employees are eligible to participate in the System. Benefits vest with 10 years of service. At retirement age, employees are entitled to annual benefits equal to \$300 plus 2.5% of their highest consecutive 36 months' average salary multiplied by their years of credited service.

Vested employees are entitled to a retirement benefit, payable monthly for life at (a) any age with 30 years of service, (b) age 55 with 25 years of service, or (c) age 60 with 10 years of service. In addition, vested employees have the option of reduced benefits at any age with 20 years of service. The System also provides death and disability benefits. Benefits are established or amended by state statute. The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the State Employees Retirement System, Post Office Box 44213, Baton Rouge, Louisiana 70804-4213, or by calling (225) 922-0608 or (800) 256-3000.

Members are required by state statute to contribute 7.5% of gross salary, and the (BTA) is required to contribute at an actuarially determined rate as required by R.S. 11:102. The contribution rate for the fiscal year ended June 30, 2001, decreased to 13 % of annual covered payroll from the 3 % and 3 % required in fiscal years ended June 30, 2001 and 2000, respectively. The (BTA) contributions to the System for the years ending June 30, 2002, 2001, and 2000, were \$96666, \$96306, and \$87,8946, respectively, equal to the required contributions for each year.

I. POST RETIREMENT HEALTH CARE AND LIFE INSURANCE BENEFITS

GASB 12 requires the following disclosures about an employer's accounting for post retirement health care and life insurance benefits:

- 1. A description of the benefits provided and the employee group covered.
- 2. A description of the accounting and funding policies followed for those benefits.
- 3. The cost of those benefits recognized for the period, unless the costs are not readily determinable.**
- 4. The effect of significant matters affecting the comparability of the costs recognized for all periods presented.

**If the cost of any post retirement health care or life insurance benefits cannot readily be separated from the cost of providing such benefits for active employees or otherwise be reasonably approximated, the total cost of providing those benefits to active employees and retirees, as well as the number of active employees and the number of retirees covered by the plan must be disclosed.

Substantially all (BTA) employees become eligible for post employment health care, dental and tife insurance benefits if they reach normal retirement age while working for the (BTA). These benefits for retirees and similar benefits for active employees are provided through an insurance company whose premiums are paid jointly by the employee and the (BTA). For 2001, the cost of providing those benefits for the _____ retirees totaled \$______.

The	リンナル・と (BTA) provides certain continuing health care and life insurance benefits
for its	s retired employees. Substantially all (BTA) employees become eligible for those benefits if they reach
norm	nal retirement age while working for the (BTA). Those benefits for retirees and similar benefits for active
empl	loyees are provided through an insurance company whose monthly premiums are paid jointly by the
empl	loyee and by the (BTA). The (BTA) recognizes the cost of providing these benefits ((BTA)'s portion of
prem	niums) as an expenditure when paid during the year, which was \$ <u>164.610</u> for the year endec
	The cost of providing those benefits for ק retirees is not separable from

			1				<u></u>
			Ц <u>Р</u>				·

<u></u>					•		
Total	\$ 0 \$	0 \$	0 \$	0 \$	0 \$	0 \$	0

2. CAPITAL LEASES

Capital leases are (are not) recognized in the accompanying financial statements. The amounts to be accrued for capital leases and the disclosures required for capital and operating leases by National Council on Governmental Accounting (NCGA) Statement No. 5, as adopted by the Governmental Accounting Standards Board, and FASB 13 should be reported on the following schedules:

Capital leases are defined as an arrangement in which <u>any one</u> of the following conditions apply: (I) ownership transfers by the end of the lease, (2) the lease contains a bargain purchase option, (3) the lease term is 75% of the asset life or, (4) the discounted minimum lease payments are 90% of the fair market value of the asset.

The following is a schedule by years of future minimum lease payments under capital leases together with the present value of the net minimum lease payments as of (last day of your fiscal year) and a breakdown of yearly principal and interest:

STATE OF LOUISIANA

WEST Sterk Liever 9115 (BTA)

Notes to the Financial Statement
As of and for the year ended June 30, 20 つつ

Year ending June 30, :	Total
2003	\$
2004	
2005	
2006	
2007	1
2008-2012	
2013-2015	
Total minimum lease payments	0
Less amounts representing executory costs	
Net minimum lease payments	0
Less amounts representing interest	
Present value of net minimum lease payments	\$ 0

3. LESSOR DIRECT FINANCING LEASES

A lease is classified as a direct financing lease (1) when any one of the four capitalization criteria used to define a capital lease for the lessee is met and (2) when both the following criteria are satisfied:

- Collectibility of the minimum lease payments is reasonably predictable.
- No important uncertainties surround the amount of the unreimbursable costs yet to be incurred by the lessor under the lease.

Provide a general description of the direct financing agreement, and complete the chart below:

Composition of lease	Date of lease	Minimum lea payment receiv	
a. Office space		\$	
b. Equipment		1	
c. Land		MA	·
Less amounts representing execut Minimum lease payment receiv	able		0
Less allowance for doubtful account Net minimum lease payments r			0
Less unearned income Net investment in direct financia	ng lease	\$	0

Minimum lease payme	ents do not include co	intingent rentals which may	be received as stipula	ited in the
lease contracts. Con	tingent rental paymen	its occur if for example the	s use of the equipmen	t, land, or
building etc., exceeds	a certain level of activi	ty each year. Contingent re	ntals received for fiscal	year 2002
were \$for	office space, \$	for equipment, and \$	for land.

LRS 33:9022 defines cooperative endeavors as any form of economic development assistance between and among the state of Louisiana, its local governmental subdivisions, political corporations, public benefit corporations, the United States government or its agencies, or any public or private association, corporation, or individual. The term cooperative endeavor includes cooperative financing, cooperative development, or any form of cooperative economic development activity. The state of Louisiana has

STATE OF LOUISIANA
WEST のとう Lever DIST (BTA)
Notes to the Financial Statement
As of and for the year ended June 30, 20 0つ

entered into cooperative endeavor agreements with certain entities aimed at developing the economy of the state. The liability outstanding as of June 30, 2002, by funding source, is as follows:

NOTE: Amounts in excess of contract limits cannot be used to reduce the outstanding contract balance at June 30, 2002. For example, if a contract specifies a percentage of usage for each month (25%) and usage exceeds that percentage (75%), you cannot claim actual usage that exceeds contract requirements (50%).

NOTE: In order to compute your ending balances by funding source, you should begin with your balances at June 30, 2001. These amounts will be increased by amounts for new contracts and amendments and decreased for payments as well as for liquidations.

R. GOVERNMENT-MANDATED NONEXCHANGE TRANSACTIONS (GRANTS)

X. SEGMENT INFORMATION

Governments that report enterprise funds or that use enterprise fund accounting and reporting standards to report their activities are required to present segment information for those activities in the notes to the financial statements. For the purposes of this disclosure, a segment is an identifiable activity (or group of activities), reported as or within an enterprise fund or an other stand-alone entity that has one or more bonds or other debt instruments outstanding, with a revenue stream pledged in support of that debt. In addition, the activity's revenues, expenses, gains and losses, assets, and liabilities are required to be accounted for separately. This requirement for separate accounting applies if imposed by an external party, such as accounting and reporting requirements set forth in bond indentures. Disclosure requirements for each segment should be met by identifying the types of goods and services provided and by presenting condensed financial statements in the notes, including the elements in A through C below (GASB 34, paragraph 122, as modified by GASB 37, paragraph 17.)

Type of goods or services provided by the segment

- A. Condensed statement of net assets:
 - (1) Total assets distinguishing between current assets, capital assets, and other assets. Amounts receivable from other funds or BTA's should be reported separately.
 - (2) Total liabilities distinguishing between current and long-term amounts. Amounts payable to other funds or BTA's should be reported separately.
 - (3) Total net assets distinguishing among restricted; unrestricted; and amounts invested in capital assets, net of related debt.

SINGLE AUDIT SECTION

(504) 371-4390

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Commissioners
West Jefferson Levee District
Marrero, Louisiana

I have audited the basic financial statements of the West Jefferson Levee District (the "District"), a component unit of the State of Louisiana, as of and for the year ended June 30, 2002, and have issued my report thereon dated August 23, 2002. I conducted my audit in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control over Financial Reporting

In planning and performing my audit, I considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operation that I consider to be material weaknesses.

This report is intended for the information of the Board of Commissioners, management, all applicable Federal and State agencies, and the Legislative Auditor of the State of Louisiana, and is not intended to be and should not be used by anyone other than these specified parties.

Paul C. Rine, PA August 23, 2002

(504) 371-4390

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Commissioners
West Jefferson Levee District
Marrero, Louisiana

Compliance

I have audited the compliance of the West Jefferson Levee District (the "District"), a component unit of the State of Louisiana, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2002. The District's major federal programs are identified in the Summary of Auditor's Results section of the Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. My responsibility is to express an opinion on the District's compliance based on my audit.

I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination on the District's compliance with those requirements.

In my opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2002.

Internal Control over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing my audit, I considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

My consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over compliance and its operation that I consider to be material weaknesses.

This report is intended for the information of the Board of Commissioners, management, all applicable Federal and State agencies, and the Legislative Auditor of the State of Louisiana, and is not intended to be and should not be used by anyone other than these specified parties.

Paul C. Rine L. CPA August 23, 2002

WEST JEFFERSON LEVEE DISTRICT State of Louisiana

SCHEDULE OF FINDINGS AND QUESTIONED COSTS For the Fiscal Year Ended June 30, 2002

Summary of Auditor's Results

- The auditor's report expresses an unqualified opinion on the basic financial statements of the West Jefferson Levee District (the "District"), a component unit of the State of Louisiana, as of and for the year ended June 30, 2002.
- 2. No material weaknesses or reportable conditions in internal control relating to the audit of the financial statements are reported in the Independent Auditor's Report on Compliance and on Internal Control Over Financial Reporting Based on an Audit Performed in Accordance With Government Auditing Standards.
- 3. No instances of noncompliance material to the financial statements of the District are reported in the Independent Auditor's Report on Compliance and on Internal Control Over Financial Reporting Based on an Audit Performed in Accordance With Government Auditing Standards.
- 4. No material weaknesses or reportable conditions in internal control relating to the audit of the major federal award programs are reported in the Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Program and Internal Controls Over Compliance in Accordance With OMB Circular A-133.
- 5. The auditor's report on compliance for the major federal award programs for the District expresses an unqualified opinion on all major federal programs.
- 6. There are no findings relative to the major federal awards programs for the District that require disclosure under OMB Circular A-133.
- 7. The programs tested as major federal award programs include"

CFDA	Program Name
Unknown	Water Resources and Development Act,
•	Westbank Hurricane Protection Levee

- 8. The threshold for distinguishing Type A and Type B programs was \$300,000 (although it should be noted that the Westbank Hurricane Protection Levee project is being conducted under a "cooperative endeavor agreement" and no direct federal assistance was received).
- 9. The District was not considered to be a "low-risk" auditee.
